

THE FIRM

Sobel Tinari Economics Group (STEG) is a nationally-recognized team of award-winning economists and analysts that provides high-quality economic consulting services on a wide variety of litigated matters. Principal of the Firm and Chief Economist, Kristin Kucsma, M.A., leads an expert team of economists and research analysts who have authored thousands of economic loss appraisals, across a wide variety of cases, providing both plaintiff and defense services. STEG's economists have over 60 years' experience in assessing, quantifying and testifying about economic damages. STEG's economists are intimately involved in the particulars of each case, from assessment to completion of the economic appraisal report.

STEG offers three testifying economic experts: Kristin K. Kucsma, M.A.; Kenneth T. Betz, MBA, M.A.; and Stephen Levinson, Ph.D. Collectively, our experts have testified in over 700 trials and depositions. Our team offers extensive knowledge of economics and finance, as well as years of experience in litigation support, academia and consulting. Our professional staff of research analysts work under the direct supervision of our economists in the assessment and quantification of damages associated with each case. We work collaboratively to assess the underlying damages of your case.
